

ABORTION – The Heart of Our Nation Is Changing!

The heart and mind of America is changing over the issue of abortion. The startling statistics cited below are well beneath the radar of our major media outlets, yet they are greatly encouraging for those of us standing for life. As you will see, the battle for the lives of pre-born children is being won as gentle Christians live out their faith in the streets of their cities. That's right! During the administration of the most pro-abortion President our nation has ever had (William Jefferson Clinton) the number of abortions performed in America, the number of abortion mills in America, and the number of doctors performing abortions in America plummeted dramatically.

President Bush stated in October 2003, while signing the Partial Birth Abortion Ban: **“I don't think the culture has changed to the extent that the American people or the Congress would totally ban abortion.”**

Au contraire, Mr. President! The culture may not be ready, but God is! And, just a cursory look at the figures below, indicate that the culture may be more ready for legalized abortion to end in this nation than any of us know. How can this be?

Abortion is not a political issue. It is a Gospel issue. When gentle Christian warriors allow their theology to become

biography in the streets of their cities, the gates of hell cannot prevail! The heart of our nation is changing toward the unborn child. The truth, concerning the sanctity and preciousness of life, is overwhelming the lie of abortion. The abortion industry does not have enough fingers to put in the dike to stop the hemorrhaging.

“Abortion will come to an end in America when the Church of Jesus Christ makes up her mind that it will come to an end - not one second sooner!” Rev. Flip Benham

What the Abortion Industry is Saying: “We are losing!”

1. “For five consecutive years nationally, teen pregnancy, birth rates, and abortions have declined.” **(Dr. Henry Foster, abortionist and President Clinton’s National Advisor on Teen Pregnancy, 1998)**
2. “This is a crisis, it’s increasingly impossible for women to get a service (abortion) that’s absolutely legal.” **(Melinda Dubois – US News and World Report, 1998)**
3. “Hate and harassment clearly inhibit women from access to abortion. It is more difficult now to get an abortion than it was five years ago.” **(Gloria Feldt of PPFA, 1997)**
4. “Abortion opponents will achieve their goal without ever having to overturn *Roe v. Wade*.” **(Kate Michelman of NARAL, 1997)**
5. “The number of abortions in this nation has dropped twenty-nine percent in the last six years.” **(Dr. Joycelyn Elders, former U.S. Surgeon General, 1998)**
6. “The anti-abortionists are winning without really winning. They scare off the younger doctors.” **(James Pendergraft, Abortionist – The Associated Press, 1998)**

It is when the heart of a nation changes, that the laws of the land will reflect that change. The battle for the lives of pre-born children must be won in the streets of our cities – at the very gates of hell – before it is won in Washington, D.C. We pray that these statistics and statements will be an encouragement to you. The abortion industry is in a downward death spiral. You will never see this on the national media for it has no desire whatever to allow these facts to be known. You, however, *“are the light of the world ... let your light shine before men, that they may see your good deeds and praise your father in heaven.”*
